Professional Summary

Computer Science undergraduate (2027) skilled in JavaScript, Python, SQL, ReactJS, and NodeJS. Experienced in developing real-time web applications and working with Git/GitHub, REST APIs, and modern software development practices. Strong problem-solving and full-stack development skills.

Experience

Software Development Virtual Intern

2024

Deloitte (Virtual Experience)

Remote

- Completed end-to-end requirement gathering, data examination, and delivery of analytical findings, simulating real-world software project workflows used in cross-functional product teams.
- Produced structured technical summaries and stakeholder-ready documentation, demonstrating ability to communicate complex system outputs in plain language.
- Applied data classification and forensic analysis techniques on business datasets, strengthening skills in identifying anomalies and communicating data quality issues.
- Practised professional communication by preparing presentation decks that conveyed technical outcomes clearly to both technical and non-technical stakeholders.

Projects

Flight Tracking System | *JavaScript, Firebase, HTML, CSS* | [Project Link](#)

2024

- Developed a real-time Flight Tracking System with role-based authentication (Admin/User) for monitoring and managing live flight information.
- Integrated Firebase Realtime Database to enable instant flight status updates and seamless data synchronization across users.
- Designed responsive and user-friendly interfaces using HTML, CSS, and JavaScript, ensuring compatibility across desktop and mobile devices.
- Managed source code using Git and GitHub, following version control best practices and maintaining a structured project repository.

Education

SR University

2023 – 2027

Bachelor of Technology in Computer Science Engineering

CGPA: 6.1 / 10

Ekashila Junior College

2021 – 2023

Class XII — Mathematics, Physics, Chemistry (MPC)

Percentage: 70%

Skills

Languages: JavaScript , Python, SQL, HTML5, CSS3

Frontend: ReactJS, NextJS (learning), Responsive UI/UX Design

Backend: Node.js, Express.js, REST API Design, FireBase Authentication

Databases: MySQL, MongoDB, Firebase (Realtime Database & Firestore), Redis (learning)

DevOps & Cloud: Docker, Git, GitHub, CI/CD (GitHub Actions), Azure (fundamentals), AWS (fundamentals)

Concepts: Microservices Architecture, Agile Methodology, DSA & Problem Solving, RESTful APIs, Component-Based Design

Certifications

Deloitte Data Analytics Virtual Experience Certificate | *Deloitte, 2024*

Google Certified Student Program Certificate | *Google*

Web Development Programming Certificate | *Simplilearn*

Extracurricular & Interests

Interests: Full-Stack Development, Backend Engineering, Cloud-Native Applications, Open-Source Contribution, DevOps Practices.

Activities: Actively participate in online coding challenges (LeetCode, HackerRank) with a focus on DSA and web development problem solving; maintain a public GitHub portfolio with documented projects; follow developments in microservices, containerisation, and SaaS product engineering.
